

## Power Meets Efficiency

SK330 SK350LC

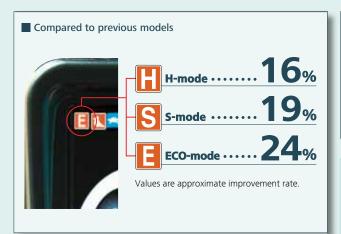

#### In Pursuit of Improved Fuel Efficiency

#### **Operation Mode**

Fuel consumption is lower in H-mode/S-mode/ECO-mode in comparison with the previous model (Generation 8).

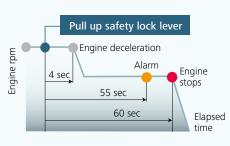

Always and Forever. Yesterday, Today, and Tomorrow. Obsessed with Fuel Efficiency.

Over the past 10 years, Kobelco has achieved an average reduction of about 37% in fuel consumption. And we vow to continue to lead in fuel efficiency. Compared to SK330-6 model (2006)

ECO-mode (SK330-10)

...**37**%

#### AIS (Auto Idle Stop)

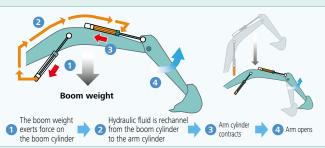

If the safety lock lever is lifted up, the engine will stop automatically. This eliminates wasteful idling during standby, saving fuel and reducing CO<sub>2</sub> emissions as well.

#### **Hydraulic System: Revolutionary Technology Saves Fuel**

#### Arm Interflow System Www

When lowering the boom, this system uses the downward force generated by the boom's weight to push fluid to the shovel arm cylinder. This greatly reduces the need to apply power from outside the system.

#### Pursuing maximum fuel efficiency

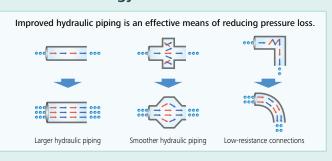

#### Common Rail System

High-pressure injection atomizes the fuel, and more precise injection improves combustion efficiency. This also contributes to better fuel economy.

#### **Hydraulic Circuit Reduces Energy Loss**

We have made every effort to enhance fuel efficiency by minimizing hydraulic pressure resistance, improving the hydraulic line layout to control friction resistance loss and minimizing valve resistance.

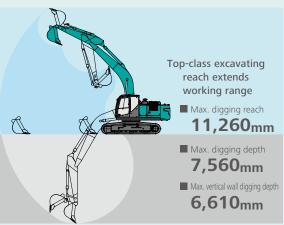

4

# More Power and Higher Efficiency.

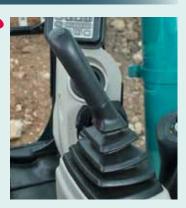

#### **Get More Done Faster with Superior Operability**

\*Values are for STD arm (3.3m)

## A Light Touch on the VEW Lever Means Smoother, Less Tiring Work

It takes 38% less effort to work the operation lever, which reduces fatigue over long working hours or continued operations.

#### **Top Class Traveling Force**

Powerful traveling force and drawbar pulling force deliver plenty of speed when climbing slopes or negotiating bad roads, and the agility to change direction swiftly and smoothly.

■ Drawbar Pulling Force: 333kN

#### Operator-friendly Features Include Controls that Are Easy to See, Easy to Use

#### **Multi-Display in Color**

Brilliant colors and graphic displays are easy to recognize on the LCD multi-display in the console. The display shows fuel consumption, maintenance intervals, and more.

- 1 Analog gauge provides an intuitive reading of fuel level and engine water temperature
- Q Green indicator light shows low fuel consumption during operation
- 3 Fuel consumption/Switch indicator for rear camera images
- 4 Digging mode switch
- 6 Monitor display switch

Fuel consumption

Maintenance

Breaker mode

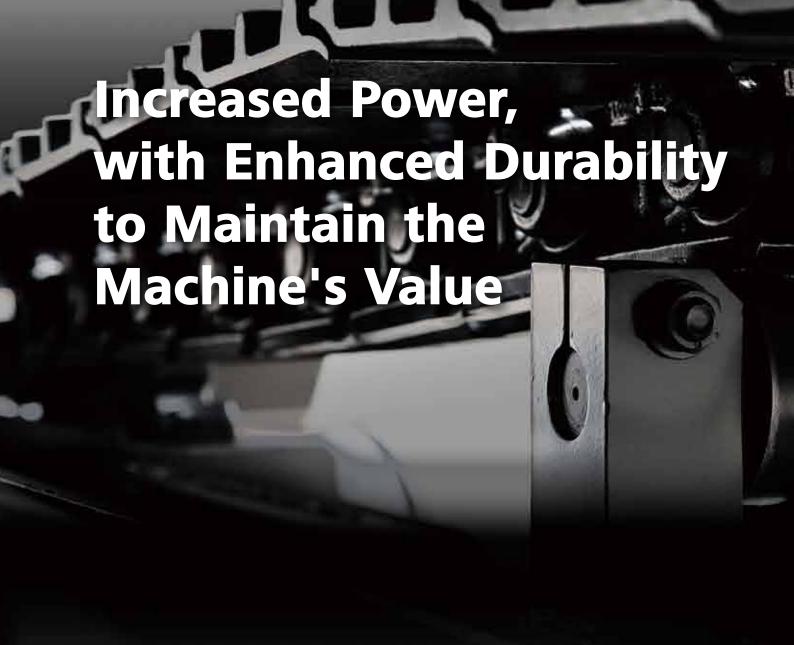

Nibbler mode

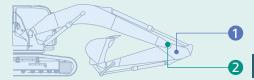

Rearview monitoring (Option)

#### One-Touch Attachment Mode Switch

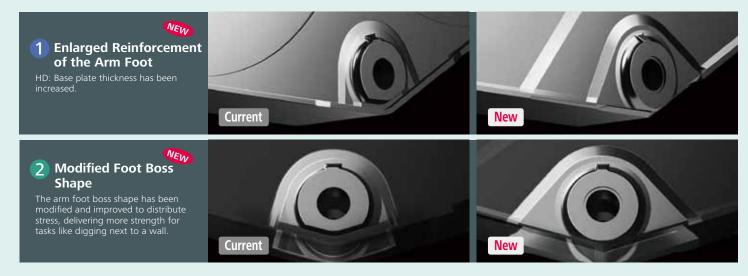

A simple touch of a button, switches the hydraulic circuit and flow amount to match attachment changes. Icons help the operator to confirm the proper configuration at a glance.

#### **Built to Operate in Tough Working Environments**

The attachment has been reinforced to handle a higher work volume, with greater power and excellent durability that can withstand demanding work conditions.

#### **Improved Filtration System Reliability**

Clean, contaminant-free fuel and hydraulic fluid are essential to stable performance. The improved filtration systems reduce the risk of mechanical trouble and enhance longevity and durability.

#### Hydraulic Fluid Filter WWW

Recognized as the best in the industry, our Premium-fine filter separates out even the smallest particles. New cover prevents contamination when changing filters.

### Hydraulic Fluid Filter Clog Detector

Hydraulic tank pressure sensor monitors the pressure difference between the return line and tank inside pressure to determine the degree of clogging. If the difference exceeds a predetermined level, a warning appears on the multi-display, so any contamination can be trapped by the filter and replaced before it reaches the hydraulic fluid in the tank.

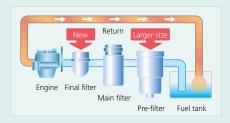

## Metal Mesh Cover VEW Air Cleaner

Metal mesh cover ensures strength and durability.

#### **Fuel Filter**

The pre-filter with built-in water separator has 1.8 times more filter area compared to the previous models and with a new final stage maintenance free fuel filter to maximize filtering performance.

# Comfortable Cab Is Now Safer than Ever.

#### Comfort

#### **Super-Airtight Cab**

The high level of air-tightness keeps dust out of the cab.

#### **Quiet Inside**

The high level of air-tightness ensures a quiet, comfortable cabin interior.

#### **Low Vibration**

Coil springs absorb small vibrations, and high suspension mounts filled with silicone oil reduce heavy vibration. The long stroke achieved by this system provides excellent protection from vibration.

## **Broad View Liberates** the Operator

The front window features one large piece of glass without a center pillar on the right side for a wide, unobstructed view.

## Air Conditioner Louvers behind the Seat

The large air-conditioner has louvers on the back pillars that blow from behind and to the right and left of the operator's seat. They can be adjusted to put a direct flow of cool/warm air on the operator, which means a more comfortable operating environment.

#### **More Comfortable Seat Means Higher Productivity**

## Large Cab Is Easy to Get in and Out of

The expanded cab provides plenty of room for a large door, more headroom and smoother entry and exit.

## **Interior Equipment Adds to Comfort and Convenience**

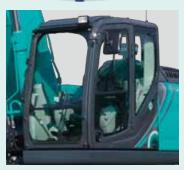

#### Safety

#### **ROPS Cab**

ROPS (Roll-Over-Protective Structure)-compliant cab clears ISO standards (ISO-12117-2: 2008) and ensures greater safety for the operator should the machine tip over.

#### **Expanded Field of View for Greater Safety**

Greater safety assured by rearview mirrors on left and right.

A rear view camera is installed as option to simplify checking for safety behind the machine. The picture appears on the color monitor.

#### KOBELCO MONITORING EXCAVATOR SYSTEM

#### **Direct Access to Operational Status**

#### **Location Data**

• Accurate location data can be obtained even from sites where communications are difficult.

Latest location Location records Work data

#### **Operating Hours**

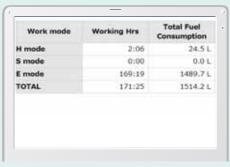

- A comparison of operating times of machines at multiple locations shows which locations are busier and more profitable.
- Operating hours on site can be accurately recorded, for running time calculations needed for rental machines, etc.

Daily report

#### **Fuel Consumption Data**

• Data on fuel consumption and idling times can be used to indicate improvements in fuel consumption.

Fuel consumption

#### **Graph of Work Content**

•The graph shows how working hours are divided among different operating categories, including digging, idling, traveling and optional operations.

Work status

#### **Maintenance Data and Warning Alerts**

## Machine Maintenance Data

- Provides maintenance status of separate machines operating at multiple sites.
- Maintenance data is also relayed to KOBELCO service personnel, for more efficient planning of periodic servicing.

Model	Serial No.	Hour Meter	Engine Oil
5K135SRLC- 3/5K1405RL	VH07-09721 0.38/0.35	734 Hr	434
SK135SRLC- 3/SK140SRL	99107-09789 0.38/0.35	73 Hr	429
SK210LC-9	Y013-10454 0.8/0.7	960 Hr	58
5K210LC-9	Y013-10481 0.8/0.7	549 Hr	498
SK7SSR-	YT08-30374		

Maintenance

#### **Warning Alerts**

•This system warns an alert if an anomaly is sensed, preventing damage that could result in machine downtime.

## Alarm Information Can Be Received through E-mail

• Alarm information or maintenance notice can be received through E-mail, using a computer or cell phone.

#### **Daily/Monthly Reports**

• Operational data downloaded onto a computer helps in formulating daily and monthly reports.

Messages displayed when the machine returns to the set area.

#### **Security System**

## **Engine Start Alarm**

•The system can be set an alarm if the machine is operated outside designated time.

Engine start alarm outside prescribed work time

#### **Area Alarm**

•It can be set an alarm if the machine is moved out of its designated area to another location.

Alarm for outside of reset area

### Easy, On-the-Spot Maintenance

There is ample space in the engine compartment for a mechanic to do maintenance work inside. The distance between steps is lower so entry and exit is easier. And the mechanic can work in comfort, without contortions or unnatural body positions. Finally, the hood is lighter and easier to raise and lower.

#### Maintenance Work, Daily Checks, Etc., Can Be Done from Ground Level

The layout allows for easy access from the ground for many daily checks and regular maintenance tasks.

2 Fuel filter with built-in water-separator

3 Engine oil filter

Simple layout for easy access to radiator and cooling system elements.

# Efficient Maintenance Keeps the Machine in Peak Operating Condition.

#### **More Efficient Maintenance Inside the Cab**

Internal and external air conditioner filters can be easily removed without tools for cleaning.

#### **Easy Cleaning**

Special crawler frame design for easy mud removal cleaning.

Detachable two-piece floor mat with handles for easy removal. A floor drain is located under floor mat.

Engine oil pan equipped with drain valve.

#### **Long-Interval Maintenance**

Long-life hydraulic oil reduces cost and labor.

## Highly Durable Premium-fine Filter

The high-capacity hydraulic oil filter incorporates glass fiber with superior cleaning power and durability.

## **Specifications**

## **Engine**

Model	HINO JOSEUN	
Туре	Four-stroke liquid-cooled direct injection diesel turbo charged with intercooler	
No. of cylinders	6	
Bore and stroke	112 mm X 130 mm	
Displacement	7.684 L	
Dated news autnut	188 kW/2,100 min <sup>-1</sup> (ISO 9249)	
Rated power output	200 kW/2,100 min <sup>-1</sup> (ISO 14396)	
May targue	969 N•m/1,600 min <sup>-1</sup> (ISO 9249)	
Max. torque	998 N • m/1,600 min <sup>-1</sup> (ISO 14396)	

## Hydraulic System

Pump			
Туре	Two variable displacement piston pumps + one gear pump		
Max. discharge flow	2 x 294 L/min, 1 x 21 L/min		
Relief valve setting			
Boom, arm and bucket	34.3 MPa {350 kgf/cm²}		
Power Boost	37.8 MPa {385 kgf/cm²}		
Travel circuit	34.3 MPa {350 kgf/cm²}		
Swing circuit	29.0 MPa {296 kgf/cm²}		
Control circuit	5.0 MPa {50 kgf/cm²}		
Pilot control pump	Gear type		
Main control valves	8-spool		
Oil cooler	Air cooled type		

## **Swing System**

Swing motor	Axial-piston motor
Brake Hydraulic; locking automatically when control lever is in neutral position	
Parking brake	Wet multiple plate
Swing speed	10 min <sup>-1</sup> {rpm}
Tail swing radius	3,600 mm
Min. front swing radius	4,310 mm

## **Travel System**

Travel motors		Variable displacement piston pump
Travel brakes		Hydraulic
Parking brakes		Wet multiple plate
Travel shoes	SK330	45 each side
	SK350LC	48 each side
ravel speed		5.6/3.3 km/h
Drawbar pulling force		333 kN (ISO 7464)
Gradeability		70 % {35°}

## Cab & Control

All-weather, sound-suppressed steel cab mounted on the high suspension mounts filled with silicone oil and equipped with a heavy, insulated floor mat.

Control
Two hand levers and two foot pedals for travel
Two hand levers for excavating and swing
Electric rotary-type engine throttle

## Boom, Arm & Bucket

Boom cylinders	140 mm x 1,550 mm
Arm cylinder	170 mm x 1,788 mm
Bucket cylinder	150 mm x 1,193 mm

## **Refilling Capacities & Lubrications**

Fuel tank	503 L
Cooling system	35 L
Engine oil	28.5 L
Travel reduction gear	2 x 8.0 L
Swing reduction gear	7 L
Hadaa Paashaad	245 L tank oil level
Hydraulic oil tank	410 L hydraulic system

- Do not attempt to lift or hold any load that is greater than these lifting capacities at their specified lift point radius and heights. Weight of all accessories must be deducted from the above
- Lifting capacities are based on machine standing on level, firm, and uniform ground. User must
  make allowance for job conditions such as soft or uneven ground, out of level conditions, side
  loads, sudden stopping of loads, hazardous conditions, experience of personnel, etc.
- 3. Arm top pin is defined as lift point.

- 4. The above lifting capacities are in compliance with ISO 10567. They do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. Lifting capacities marked with an asterisk (\*) are limited by hydraulic capacity rather than tipping load.
- 5. Operator should be fully acquainted with the Operator's and Maintenance Instructions before operating this machine. Rules for safe operation of equipment should be adhered to at all times.

  6. Lifting capacities apply to only machine as originally manufactured and normally equipped by KOBELCO CONSTRUCTION MACHINERY CO., LTD.

#### STANDARD EQUIPMENT

#### **ENGINE**

- Engine, HINO J08EUN, diesel engine with turbocharger and intercooler
- Automatic engine deceleration
- Auto Idle Stop (AIS)
- Batteries (2 x 12V 96Ah)
- Starting motor (24V 5 kW), 60 amp alternator
- Automatic engine shut-down
- Engine oil pan drain cock
- Double element air cleaner

#### CONTROL

- Working mode selector (H-mode, S-mode and ECO-mode) Power Boost

#### SWING SYSTEM & TRAVEL SYSTEM

- Swing rebound prevention system
- Straight propel system
- Two-speed travel with automatic shift down
- Sealed & lubricated track links
- Grease-type track adjusters
- Automatic swing brake
- Tow eyes

#### **HYDRAULIC**

- Boom regeneration system
- Auto warm up system
- Aluminum hydraulic oil cooler
- Arm interflow system
- Hydraulic fluid filter clog detector

#### **MIRRORS & LIGHTS**

- Two rear view mirrors
- Five front working lights (Two for boom, one for boom cylinder, one for right storage box and one for cab)

#### **CAB & CONTROL**

- Two control levers, pilot-operated
- Horn, electric
- Cab light (interior)
- Luggage tray
- Large cup holder
- Detachable two-piece floor mat
- Headrest
- Handrails
- Intermittent windshield wiper with double-spray washer
- Skylight
- Tinted safety glass
- Pull-up type front window and removable lower front window
- Easy-to-read multi-display color monitor
- Automatic air conditioner
- Emergency escape hammer
- KOMĒXS
- Suspension seat

#### **OPTIONAL EQUIPMENT**

- Additional track guide
- N & B piping
- Refilling pump

- Rear view camera
- Cab guard
- Two cab lights

Note: Standard and optional equipment may vary. Consult your KOBELCO dealer for specifics.
